North European short-tailed breeds of sheep: a review
O. R. Dýrmundsson and R. Niżnikowski

Performance and utilization of Northern European short-tailed breeds of sheep and their crosses in North America: a review
D. L. Thomas

Gene expression patterns in anterior pituitary associated with quantitative measure of oestrous behaviour in dairy cows
A. Kommadath and H. A. Mulder and A. A. C. de Wit and H. Woelders and M. A. Smits and B. Beerda and R. F. Veerkamp and A. C. J. Frijters and M. F. W. te Pas

Detecting QTL for feed intake traits and other performance traits in growing pigs in a Piétrain–Large White backcross
H. Gilbert and J. Riquet and J. Gruand and Y. Billon and K. Fève and P. Sellier and J. Noblet and J. P. Bidanel

Genetic parameters for bone strength, osteochondrosis and meat percentage in Finnish Landrace and Yorkshire pigs
A. Storskrubb and M.-L. Sevón-Aimonen and P. Uimari

Analysis of culling probability in dairy buffalo using survival models
P. M. Galeazzi and M. E. Z. Mercadante and J. A. II V. Silva and L. G. de Albuquerque and G. M. F. de Camargo and H. Tonhati

Merino sheep: a further look at quantitative trait loci for wool production

Ileal amino acids digestibility of sorghum in weaned piglets and growing pigs
G. Mariscal-Landín and T. C. Reis de Souza and M. A. Avalos

A sulfur amino acid deficiency changes the amino acid composition of body protein in piglets
J. A. Conde-Aguilera and R. Barea and N. Le Floch and L. Lefaucheur and J. van Milgen

Does the newly weaned piglet select a zinc oxide supplemented feed, when given the choice?
F. H. Reynolds and J. M. Forbes and H. M. Miller
